BOREAS TF-11 SSA FEN LEAF GAS EXCHANGE DATA

Summary:

The BOREAS TF-11 team gathered a variety of data to complement their tower flux measurements collected at the SSA Fen site. This data set contains single-leaf gas exchange data from the SSA Fen site during 1994 and 1995. These leaf gas exchange properties were measured for the dominant vascular plants using portable gas exchange systems.

A guide document which includes more information about this data set can be found at http://daac.ornl.gov/boreas/TF/tf11leaf/comp/TF11_Leaf_Gas_Exchange.txt.

ORNL DAAC maintains information on the entire BOREAS Project.
